

Chess has been described as a wonderful educational tool which can strengthen a child's mind. Chess can enhance concentration as well as develop creativity, intuition, memory, and the ability to analyse, make complex decisions and solve problems flexibly. Chess is exciting and fun to play.

It is worth noting that most leading mathematicians started to play chess from an early age.

**Mondays or
Wednesdays 3.15 –
4.15pm**

**£78 for 12 wks (still
£6.50 a session)**
